Experience a truly unique pressure-controlled massage in the EZL Spa. A 4-person spa with patented comfort back water stream contoured channels and 16 stainless steel massage jets. The water fountain with adjustable flow creates the perfect ambiance for your soak, and the durable, lightweight spa comes in seven colour combinations of Syncrylic™ diamond body colors with complementary textured panels available in brick or wicker.

With a Syncrylic™ unibody construction that is virtually indestructible, this energy efficient model comes with Weather Shield Super Seal Cover, patented Easy Kleen/Convex2 filtration — all the benefits of a luxury spa at a fraction of the price. This all-inclusive, easy to install, lightweight design makes the EZL SPA perfect for lounging and entertaining.

Additional Information

Dream Maker Spas believes that comfort should never take a back seat to your health and well-being, which is why we offer a number of different spas that meet all your needs. The powerful jets soothe aching muscles and tired joints, while the warm water provides the comfort that you need. These spas are the perfect way to recover from injuries, but you'll also love relaxing in the water after a long day.

Perfect for Families or Entertainment

The EZL Spa model is one of the best options for families that enjoy entertaining along with relaxation. This spa features two large seats in two of the corners with a lounge on the opposite side. This spa has enough room to easily fit up to four people comfortably.

Easy to Control

While other spas can come with an instructional booklet that is as large as a dictionary, nearly anyone can learn how to use this spa in a few short minutes. The digital controls let you adjust the heat of the water based on your needs. Turn the pump from low to high to increase the therapy action that comes from the 16 stainless steel jets.
