Perfect For Families or Entertainment

The EZ Spa model is one of the best options for larger families and those who enjoy entertaining. This spa features two large seats in two of the corners with a bench seat on the opposite side. This spa has enough room to easily fit four-five people comfortably.

With a Syncrylic™ unibody construction that is virtually indestructible, this energy efficient model comes with Weather Shield Super Seal Cover, patented Easy Kleen/Convex2 filtration — all the benefits of a luxury spa at a fraction of the price. This all-inclusive, easy to install, lightweight design makes the EZL SPA perfect for lounging and entertaining.

Easy to Control

While other spas can come with an instructional booklet that is as large as a dictionary, nearly anyone can learn how to use this spa in a few short minutes. The digital Balboa controls let you adjust the heat of the water based on your needs. Turn the pump from low to high to increase the therapy action that comes from the 16 stainless steel jets.

Experience a truly unique pressure-controlled massage in the EZ Spa ^[1]_{SEP}5-person spa with patented comfort back water stream contoured channels and 16 stainless steel massage jets. The water fountain with adjustable flow creates the perfect ambiance for your soak, and the durable, lightweight spa comes in seven colour combinations of Syncrylic™ diamond body colours with complementary textured panels available in brick or wicker.

With a Syncrylic™ unibody construction that is virtually indestructible, this energy efficient model comes with Weather Shield Super Seal Cover, patented Easy Kleen/Convex2

filtration — all the benefits of a luxury spa at a fraction of the price. This all-inclusive, easy to install, lightweight design makes the EZ SPA perfect for family and entertaining.
